Environmental Sustainability Policy

Elektron Consulting is committed to reduce its everyday environmental impacts in accordance with the objectives contained in **Victoria's Environmental Sustainability Framework (Our Environment Our Future)**.

Elektron Consulting will keep on improving its environmental performance by following methods, which include:

- ensuring that all employees are involved in and consulted on matters that may affect the environment.
- minimising the energy and water use in our workplace.
- reducing use of paper by generating electronic communication in all spheres of business.
- reducing workplace waste generation and separating recyclable waste.
- purchasing environmentally sound items.
- disposing responsibly electronic gadgets.
- following pollution prevention approach in our workplace.
- making employees aware of this policy.

Elektron Consulting further commits to monitor regularly its **Environmental Sustainability Policy** and communicate the same to all stakeholders.
